

## COVID-19 PCR TEST/FIT TO FLY CERTIFICATE

First Name	Sonu	Sample Type	Swab
Surname	Bilawal	Sample Date	22/02/2022
DOB	22/02/2022	Sample Time	468
Passport Number	dssdsdsdsdsd	Test Date and Time	
Sample Barcode ID	466784	Dated Result Issued	22/02/2022

Assay	Result
SARS-CoV-2 RT-PCR screen for active infection	Negative

### Result Interpretation

Not detected: No evidence of SARS-CoV-2 RNA in this sample. This indicates that, at the time of sampling, the patient is unlikely to have an active SARS-CoV2 infection

### Analysis Notes

It should be noted that all results provide a momentary view and that an individual's health status may have changed since the sample specimen was taken. Screening is provided on a best endeavours policy based on the sample specimen supplied and does not provide a guarantee to the health status of individuals. If your health status has changed since the sample specimen was taken, or you have symptoms, or your condition worsens, please contact your GP or NHS 111. Ensure you follow current government guidelines. The above tests are carried out via CE-IVD certified testing kits using validated methods by Expert Doctors Labs in-line with ISO 15189, Medical Laboratories – Requirements for quality and competence.
